- Town responsibilities versus MLP
- Warmer months porta potty placement/when and where?

Staff Reports

- Town Manager
- Building and Health Inspector
- Land Use Administrator

Other Business

*While the Rail Trail is an important feature of the park, it must be noted that Lakeside Park was created to provide access to and general enjoyment of the lake. That must be our overriding concern and mission, in addition to educating the public about good lake stewardship. We welcome Rail Trail users who want to enjoy the lake, but Lakeside Park should not be thought of first and foremost a facility for the benefit of the Rail Trail. It is a park to provide enjoyment of the lakeside setting for the people of Enfield and beyond.
